Remote Proctoring As A Service

RPaaS From Wheebox

Making Assessments Smarter with Wheebox

Remote Proctoring allows Academic institutions, Organizations, and Test Prep Companies to provide assessment anytime anywhere while ensuring full security standards. Candidates can now take assessments from their home or home offering assessments on-demand with Convenience, affordable and security compliant to testing Integrity.

Need for Proctoring as A Service:

More students are now studying online than ever before. One reality that educators are recognizing is that assessment is a key component of eLearning. COVID-19 has affected many academic institutions, driving them to implement their academic continuity strategies and Academic Institutions need to conduct an assessment with their existing digital infrastructure of LMS and Assessment Solutions. Realizing the requirement of securing assessment, Wheebox introduces Remote Proctoring as a Services offering affordable, reliable, and secured service to make your examination Cheat Proof and maintain Academic continuity.

Introducing Wheebox AI Powered Assessment Suite (Platform Capabilities)

Our end-to-end online examination platform, allowed the examiners to effortlessly manage their Assessment, set up exams and roll out results, automating an otherwise tedious process of managing a centre based examination. The questions could be easily uploaded in bulk, along with the option to randomize them. The platform simplified the examination process significantly.

1. Bulk Upload Questions
2. Pre-Configured Test Date and Time
3. Support Multiple Question Types
4. Customised White Labelling
5. Benchmark your Score
6. Advanced Analytics for Faster Results.

Real-time and AI-Based Proctoring

Real time Authentication process negated any chances of impersonation prevents students from browsing out of the test window and sharing their test screens. It also flagged suspicious instances, Multiple Person in Test Window, Face Tracking, Live Stream of Candidate and Screen Capture

Types of Proctoring

Live Proctoring: Wheebox Offers Live Human proctors to monitor your assessments to prevent cheating wherein Wheebox certified Managed Proctors / Academic Examiners to invigilate your Assessments.

Auto Proctoring: Automated proctoring system that uses Microsoft AI technology to monitor students during exams and allows them to test from the comfort of their own home. The system ensures that test integrity is maintained through the use of web cameras and screen monitoring system and making your assessment automated.

Proctoring Features :

Face Tracking	Face Recognition	360 Degree Room Scan
Live Stream	On Demand Proctors	Object and Noise Detection

Supercharge Your Assessment By Integrating Remote Proctoring in LMS / LTI Compliant Apps

Remote Proctoring can be integrated easily in an existing application, assessment platform, or LTI compliant apps from any of the Method

i) Wheebox RPaaS Light - Integrate Proctoring in your solution in 1 day and making your assessments / Certifications Safer and Secured. This integration is suited for certification platforms or many other LTI compliant applications like Moodle, Blackboard, and Sakai.

ii) Wheebox RPaaS Deep Integration - Wheebox RPaaS Deep Integration APIs can be integrated with the 3 rd Party assessment platforms or LMS and gives you full control on your assessments.
